316	22/01/2024	Nutfield Marsh Road n of Nutfield Court	Pavement covered in earth	TDC ref 00191287	Response from Lee Jenner TDC 22/1/2024 - We are currently reviewing the street cleansing frequencies in order to deliver a more reliable and sustainable service. Unfortunately the service can be disrupted as a result of sick and annual leave due to the number of operatives and drivers. For example if a driver is off sick it is not possible to bring in a temp as the salary budget is already allocated. We are also looking to procure a new mechanical sweeping vehicles which will improve reliability in this area of the service.As I'm sure you must understand we can't inform residents when we are sweeping there roads as we are trailing a different schedule at the moment. Also we suspend our normal street cleaning schedule to concentrate on roads and pavements that experience heavy leaf fall. We appreciate that we will receive communications from residents and councillors requesting that individual roads are cleansed as a matter of priority. unfortunately, it is not operationally possible to be everywhere. we apologise for any inconvenience that this may cause and would appreciate residents 'and councillors be patient regarding leafing fall. We Will endeavourer to get around to clearing leaf fall as soon as possible. Unfortunately we are now down to 1 mechanical sweeper for all of Tandridge. We will Try and get it cleared next week weather permitting.
